

EUROPEAN ASSOCIATION  
of Vertebrate Palaeontologists (EAVP)

3<sup>rd</sup> ANNUAL MEETING

Hessisches Landesmuseum Darmstadt, Germany

July 18-23, 2005

**Second Circular**

**Ladies and Gentlemen,  
Dear Friends and Colleagues,**

With the first circular you got some general information concerning the conference and location, as well as a preliminary registration form. Now we are able to provide more detailed information concerning the conference, the fees and deadlines, the abstract submission, field trips, lodging, as well as a preliminary program, which you altogether will find under:

<http://forum.hlmd.de/eavp3>

In addition, and because of several respective questions, we like to emphasize that the participation in this meeting is not exclusively restricted to EAVP members. Everyone will be welcome who is interested in vertebrate palaeontology. In addition, we also like to stress that this is not a Messel conference. As a matter of fact, 2005 is the 10<sup>th</sup> anniversary of the inscription of Messel Pit on the World Heritage List of UNESCO, and we look forward to any contribution which will focus on Messel vertebrates and closely related topics. But this is not an obligation. Any other contribution from the broad field of vertebrate palaeontology will be very much welcome.

*Gabriele Gruber, Norbert Micklich, Oliver Sandrock, Torsten Wappler*  
(Organisation Committee)
